Notes

1. **Pricing above 16 processes:** Pricing above 16 processes requires a customized quotation. We would be happy to satisfy your request for a custom quotation submitted to our online help desk.
2. **Customized solutions:** Customized solutions are available. Please submit your request for a customized solution to our online help desk.
3. **Perpetual License Software Updates:** Software updates are available only for existing **current** Perpetual Licenses. Customers with non-current license(s) will be required to bring the license(s) current before purchasing software updates. A current license is a license that has been covered by software updates without lapse since the date the license was purchased. Software updates are sold in 12-month terms.
4. **Magic Training:** Consists of one week (5-day course) at the user site. Maximum attendance for the course is 10 participants. The course focuses on providing a comprehensive overview of the software capability and aims at development of user competence in research problems of specific interest to the user. Travel and per-diem costs are additional.
5. **Technical Support:** Technical support options LS20 and LS40 may only be ordered along with a MAGIC license, and are for technical support hours in addition to the hours that already come with the license. Technical support options TS20 and TS40 may be ordered at any time by users with a valid MAGIC license. All technical support options are valid for a 12-month period beginning at the date of purchase. Technical support quotes for periods exceeding 12 months may be requested and will be handled on a case-by-case basis. Technical support includes assisting users in developing templates and providing technical advice on research problems. Communication is by e-mail and via our online help desk. Support is only available for versions of MAGIC distributed within the last 24-month period.

MAGIC Licenses: Purchase of any license includes copies of the installation CD(s) with the user manuals included on the CD(s) and twelve months of software updates.

Hardware Keys: All licensed copies of the MAGIC software are supplied with USB hardware license keys and require a USB port for installation. The hardware license keys are programmed for the specific license item.

End User License Agreement (EULA): Prior to purchasing any MAGIC item, the end user must accept the terms of our EULA. A signed copy of the EULA must be received by ATK before we will release any order.

Supported Operating Systems: MS Windows (Vista, XP, and 2000) and Red Hat Linux.

Pricing: All prices are in US\$ and are subject to change without notice. Please contact ATK for a quote prior to placing an order.
